

Achieving Success in Implant Dentistry

WITH DR. OSCAR DALMAO

PRESENTED BY:

WITH DR. OSCAR DALMAO

**HERE ARE THE RIGHT STEPS TO PROPERLY DELIVER
PREDICTABLE RESULTS FOR YOUR PATIENTS.**

- Treatment planning
- Case selection
- Implant placement
- Prosthetic components and restorative options
- Lab communication
- What to do from a lab perspective featured by Mr. Rudy Ghoubril
- Hands on bone grafting

We encourage participants to bring cases to treatment plan as a group. If you would to do this please submit CBCT scans or X Rays, and models to Dr. Dalmao two weeks prior to course.

SPONSORED BY:
